CHAMPIONSHIP SPORTSCAR RACING LEAGUE · シゲノ

Shigeno Showdown

シゲノショーダウン

One car. One build. **No qualifying — a reverse grid every round.** The whole field in the **Toyota Sprinter Trueno 1600GT APEX (S. Shigeno Version)**, Thursday nights on Japan’s short circuits.

Series Guide · Season 1 — starts Thu Dec 3, 2026

Admins: Shredda, Kainel & JDMSnob

Gran Turismo 7 · PlayStation

Series format

THURSDAYS — LOBBY 8:30 PM ET · NO QUALIFYING · RACE ~9:00 PM ET

A one-make throwdown built around a single icon: the **Toyota Sprinter Trueno 1600GT APEX (S. Shigeno Version)** — every driver, every round, built to one **locked spec** (634.02 PP, 250 HP) with **BoP off**. There is **no qualifying**: the grid is reversed, so the quickest drivers start at the back and have to come through the field. Five 30-minute races on short Japanese circuits.

Race-night format

PHASE	TIME (ET)	RULES
Lobby opens	8:30 PM	Join via the room ID posted in Discord. Weather & time of day posted in #Race-Details.
Grid set	Before the race	**No qualifying.** The host sets a **reverse grid** — Round 1 in reverse sign-up/RSVP order; later rounds in reverse championship points order.
Race	~9:00 PM	30-min race. Grid start with false start check.

Lobby settings

- **Car:** Toyota Sprinter Trueno 1600GT APEX (S. Shigeno Version) — one-make, locked spec build (overleaf) · **BoP:** off
- **Tires:** Racing Mediums only · **tire wear 5x · fuel 5x**
- **Damage:** mechanical damage Championship · refuel 5 L/sec · initial fuel 50L
- **RSVP:** mandatory on the CSRL Discord — Arrive & Drive, no registration. Custom liveries encouraged
- **Season:** 5 rounds, Dec 3 – Dec 31, 2026

The car — one build for everyone

TOYOTA SPRINTER TRUENO 1600GT APEX (S. SHIGENO VERSION)

634.02 PP · 250 HP · 1,819 lbs. Naturally aspirated, on Racing Mediums, downforce **60 front / 150 rear — locked**. Build your Trueno to this exact sheet: **any deviation = removal from the lobby, and potentially from the series.**

The spec build — locked, exact

1. Sports Suspension
2. Stock Differential
3. Stock Transmission
4. Full Control Computer (ECU)
5. Racing Air Filter
6. Racing Muffler
7. Racing Brake System
8. Racing Brake Pads
9. Brake Balance Controller
10. Racing Clutch & Flywheel
11. Racing Crankshaft
12. Engine Balance Tuning
13. Stroke Up
14. Increased Body Rigidity
15. Widebody
16. 14″ aftermarket wheels — standard width, wide offset
17. Front Splitter A
18. Rear Diffuser A
19. Custom Rear Wing (High)

Build notes

- **Engine:** 250 HP, naturally aspirated — Full Control Computer (ECU), Racing Air Filter, Racing Muffler, Racing Crankshaft, Engine Balance Tuning, Stroke Up.
- **Chassis:** Sports Suspension; stock differential and stock transmission; Increased Body Rigidity; widebody with 14″ aftermarket wheels (standard width, wide offset).
- **Brakes & drivetrain:** Racing Brake System, Racing Brake Pads, Brake Balance Controller, Racing Clutch & Flywheel.
- **Aero:** Front Splitter A, Rear Diffuser A, Custom Rear Wing (High) — downforce locked at 60 F / 150 R.

BoP is OFF for this series — the spec sheet is the equalizer. If it isn’t on this page, it isn’t on the car.

Season calendar

SEASON 1 **STARTS THU DEC 3, 2026**

Five Thursdays, five Japanese circuits. Lobby 8:30 PM ET, race ~9:00 PM ET — no qualifying, reverse grid every round (Round 1 by sign-up/RSVP order, then by championship points).

RD	DATE (THU)	TRACK	LENGTH
1	Dec 3, 2026	Sportsland SUGO	2.23 mi
2	Dec 10, 2026	Suzuka Short Course	1.39 mi
3	Dec 17, 2026	Fuji Full Course	2.84 mi
4	Dec 24, 2026	Tsukuba	1.27 mi
5	Dec 31, 2026	Autumn Ring	TBD

Round 5's Autumn Ring configuration is **TBD**. Rounds 4 and 5 fall on Christmas Eve and New Year's Eve.

Points and stewarding summaries follow overleaf. The same calendar is published in the Sporting Code (Part 2, Sec. 5.4).

Part 2 of this guide is the complete CSRL Sporting Code — entry rules (Sec. 3), the points system (Sec. 6), and the on-track code (Secs. 7–9) all live there, including the Shigeno Showdown calendar as published in Sec. 5.4.

Points

FIXED SCALE — SAME FOR EVERY GRID

Shigeno Showdown pays a **fixed scale** — no turnout maths, and no qualifying bonus (there is no qualifying). Win on Thursday and you bank **52 points**, every time.

POS	PTS	POS	PTS	POS	PTS
1st	52	12th	33	23rd	22
2nd	48	13th	32	24th	21
3rd	45	14th	31	25th	20
4th	43	15th	30	26th	19
5th	42	16th	29	27th	18
6th	40	17th	28	28th	17
7th	39	18th	27	29th	16
8th	38	19th	26	30th	15
9th	37	20th	25	31st	14
10th	36	21st	24	32nd	13
11th	34	22nd	23		

Bonuses

- **Fastest Lap +1** — fastest lap of the race (each lobby, when two run).
- **Clean Race Bonus +2** — finish with **0 GT7-issued penalties**, claimed by screenshot posted in **#shigeno-crb** within 1 hour of race end.
- **No pole bonus** — no qualifying, no pole.

Two lobbies

- When the field splits into two lobbies, each lobby scores the fixed scale on its own finishing order, and each lobby can score its own Fastest Lap. Lobby assignments are posted in **#shigeno-race-details**.

Stewarding

PRIVATE TICKETING **HEAD STEWARDS: KANIEL_OUTIS78 · SCR_SHREDDA84 · AMERICANPUNK311**

- **Tickets:** incidents are reported by private ticket — **video + description required** — within 24 hours of race end. The defending driver has 24 hours to respond; results are published 24 hours after the response window closes.
- **DNF forfeits review.** Keep tickets professional — harassment in a ticket can draw a race suspension.
- **Acting stewards** are hired from participating drivers: 1 extra when the field is 10 or fewer, 3 when it's 11 or more.
- **Contact** that causes damage, a car off track, or a position loss can draw a **grid-spot penalty at the next race** — cleanly giving the position back on track (self-governing) nullifies it.
- **Penalties include** Stop-Go, grid spot(s), and loss of points. 3 aggressive-driving warnings = asked to leave the series.
- **Spec build:** any deviation from the locked build (page 3) = removal from the lobby, and potentially from the series.
- **Tire minimum:** a compound change counts only after 1 out lap + 1 racing lap on the outgoing tire (2-lap minimum) — failing it means **Back of Grid**.
- **Pits:** sitting in the pits longer than 3 laps = DNF, zero points.

Full rules in Part 2: the on-track code (Sec. 7), penalties (Sec. 8), and protests & appeals (Sec. 9). All drivers are also bound by the CSRL League Rules (server rules) in the Discord.

CHAMPIONSHIP SPORTSCAR RACING LEAGUE

SPORTING CODE

Official rulebook for Monday Mayhem, the GT Series, Flat Out Friday | GT3 Challenge, and Shigeno Showdown — race format, points, conduct, and stewarding on Gran Turismo 7.

Part 2 of this document — the complete Sporting Code, in ten sections.

Contents & how to use this code

This code applies to every CSRL lobby, qualifying session, race, and official Discord channel. By entering a CSRL lobby you agree to race under this code. CSRL runs on **Gran Turismo 7 (PlayStation)** with its own dedicated Discord server.

This document has two parts. Part 1 — Series Guide (front of this document): Shigeno Showdown — series format, the car and its locked spec build, the Season 1 calendar, points, and stewarding. **Part 2 — Sporting Code:** the full rules, in the ten sections below.

1	League at a glance	6	Points system
2	The three series	7	On-track sporting code
3	Entry, eligibility & Discord gating	8	Incidents, penalties & stewarding
4	Race-night format	9	Protests & appeals
5	Calendars	10	Championships, ties & conduct off track

How to use this code on race night

- **New driver?** Read Sections 3–4, then the calendar for your night in Section 5.
- **Chasing points?** Section 6 is the whole system — the confirmed turnout scale for Monday Mayhem, Flat Out Friday's own fixed scale, the GT Series' own 50-point scale (Sec. 6.5), and Shigeno Showdown's own fixed scale (Sec. 6.6).
- **Involved in an incident?** Section 7 defines the standard, Section 8 the penalties, Section 9 the protest window (24 hours).

> **Discord-first league.** Join the CSRL Discord, grab the Racer role, and you are on the roster. No Discord, no grid slot. Invite link: **TBA**.

1. League at a glance

Championship Sportscar Racing League (CSRL) runs three series on Gran Turismo 7 sharing one sporting code, one points philosophy, and one Discord home.

One league, one standard. Same clean-racing expectation, same turnout-based points idea, same protest process across all three nights. Each series has its own identity; the code underneath doesn't change.

2. The three series

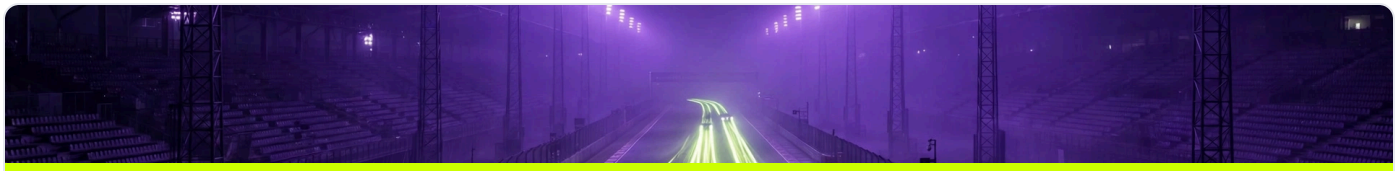

Monday Mayhem

Mondays — lobby 7:30 PM ET, qualifying 8:00 PM, race ~8:15 PM. Road cars only — a dedicated car every round — sports tires, BoP on. Tire/fuel wear multipliers change per race. 10 rounds. Season **"Test Drive: No Warranty"** starts **Mon Nov 9, 2026**.

GT Series

Sundays, bi-weekly — lobby 6:30 PM ET, qualifying 7:00 PM ET. Season 7 "WEC Team Challenge": mixed-class **LMH + LMGT3** team endurance — teams of 3, two race each round. **Currently in season.** 8 rounds. Full format in Sec. 4; points in Sec. 6.5.

Flat Out Friday | GT3 Challenge

Fridays 8:00 PM ET. Gr.3 — pick 1 car for the season. Racing tires, Medium + Hard mandatory. 45-min races + 2-round playoff. Preseason **Fri Nov 6 & 13, 2026** · Championship from **Fri Dec 4, 2026** · Finale **Fri Feb 19, 2027**. Full 10-car season list in Sec. 4.

3. Entry, eligibility & Discord gating

- **Discord-first entry.** Every driver must be in the CSRL Discord and hold the Racer role to enter a lobby. No Discord, no grid slot.
- **PlayStation Network in good standing.** Race under your real PSN ID — the one on the roster. Alt accounts require admin disclosure.
- **Own the car.** Have the round's car in your GT7 garage (or the credits to buy it) before lobby time. Admins will not delay a lobby for a dealership run.
- **Arrive & Drive spirit.** Show up through Discord, get gridded. Championship scoring requires classified finishes (Sec. 6).
- **New drivers.** Join practice, run clean laps, and ask in Discord before qualifying if you're unsure of the procedure.

4. Race-night format

Monday Mayhem (full format) — "Test Drive: No Warranty"

PHASE	TIME (ET)	RULES
Lobby opens	7:30 PM	Room mode: Practice / Qualify / Endurance, Race for Real, max 16. Weather & time of day posted in #Race-Details.
Qualifying	8:00 PM	10 min + 180s continuation; same tire/fuel settings as the race. Sets the grid — fastest first.
Race	~8:15 PM	30-min race. Grid start with false start check. Red flags first lap only — any driver can call; the host resets from the original grid.

- **The car:** one **dedicated car per round** for the whole field (Sec. 5.1). Sports tires — all compounds usable; the **required tire** is announced per round and can change weekly. Tire wear & fuel multipliers change per round. **RSVP** on the CSRL Discord is mandatory — Arrive & Drive, no registration.
- **Build rules & settings:** BoP on; aero, wheels & upgrades allowed; tuning unrestricted. **No nitrous, no widebody, no engine swaps.** Boost off, slipstream real, visible damage on, mechanical damage light, refueling 10 L/sec, grip reduction real, finish delay 180s. In-game penalties: shortcut strong, car collision on, pit-lane cutting on, ghosting weak, flag rules on. Countersteer assist & ASM prohibited; auto-drive prohibited.
- **Tire minimum:** a compound change counts only after 1 out lap + 1 racing lap on the outgoing tire (2-lap minimum) — failing it means **Back of Grid**. Sitting in the pits longer than 3 laps = DNF, zero points.
- **Late joins / disconnects:** missing qualifying starts from the back at admin discretion. Rejoin if the lobby permits; scored as DNF unless classified by distance in the official results; either way, a Monday Mayhem DNF scores **0 points** (Sec. 6.1).

4. Race-night format (continued)

Flat Out Friday | GT3 Challenge (full format)

PHASE	TIME (ET)	RULES
Lobby opens	8:00 PM	Practice. Room mode: Practice / Qualify / Laps, Race for Real, max 16 drivers per lobby.
Qualifying	9:00 PM	10 min + 180s continuation. Same tire wear and fuel settings as the race.
Race	~9:20 PM	45-minute race (laps). Grid start with false start check, fastest first.

- **Season:** 8 rounds + 2 playoff rounds (R9–R10). Playoffs run a 15-min sprint + 45-min feature with **no qualifying** — grid set by reverse championship order. R9 pays double points, R10 pays triple.
- **Cars:** Gr.3 only. Each driver picks 1 Gr.3 car from the 10-car season list (next page) and sticks with it all season. Each driver gets **1 car change** per season — the swapped car is then locked in for the rest of the season.
- **Tires & fuel:** Racing Medium and Racing Hard are the required tires; **both compounds must be used per race**. Tire wear 5x, fuel consumption 2x — fixed all season.
- **BoP:** on. All upgrades allowed. **No nitrous, no widebody kits, no engine swaps.**
- **Damage & assists:** visible damage on, mechanical damage light, slipstream real, boost off. Countersteer assist and ASM prohibited; auto-drive prohibited. Driving line, traction control, ABS unrestricted.
- **Room & race settings:** weather random, preset weather random, time of day posted in #Race-Details on Discord, variable time speed ratio 1x. Equal conditions off — **on when the field splits into 2 lobbies**. Settings options: brake balance. Refueling speed 3 L/sec, initial fuel default, nitro/overtaking multiplier default.
- **In-game penalties:** shortcut penalty strong, pit-lane cutting off, flag rules on, ghosting weak. Wall and car-collision penalties off; correct course after a wall collision off.
- **Red flags:** first lap only. Any driver may type “Red Flag” — the host stops and resets the race from the original grid order. Call it only if you’re taken out or there’s a multi-car wreck ruining races.
- **Late drivers:** we wait for late drivers who communicate in time; with zero communication, qualifying starts as close to on time as possible.
- **RSVP:** Arrive & Drive — no registration needed, but **RSVP on the CSRL Discord is mandatory** so we know how many lobbies to run.
- **Stewarding:** head stewards Kaniel_Outis78, SCR_SHREDDA84 & JDM SNOB, plus driver stewards hired per season (1 extra for 10 or fewer drivers, 3 for 11+). Incidents go through a **private ticketing system** within 24 hours of race end — video + description required. The defending driver has 24 hours to respond; results land 24 hours after that. A DNF forfeits the right to review. 3 aggressive-driving warnings = asked to leave the series. Sitting in the pits longer than 3 laps = DNF, zero points. Contact that causes damage, a car off track, or a position loss can draw a **finishing-position penalty** — cleanly giving the position back (self-governing) nullifies it. Penalties available to the stewards: **Stop-Go, grid spot(s), and loss of points**.

GT Series

Season 7 “WEC Team Challenge” runs under its own Sporting Code (v1.6) — the full format is on the next page, after the Flat Out Friday car list.

4. Race-night format (continued)

Flat Out Friday | GT3 Challenge — the 10-car season list

Gr.3 only. Each driver picks **1 Gr.3 car** from the list below and sticks with it all season.

1. GT-R NISMO GT3 ’18 (FR)
2. Corvette C7 Gr.3 (FR)
3. BMW M3 GT ’11 (FR)
4. Huracán GT3 ’15 (MR)
5. RX-VISION GT3 EVO ’26 (FR)
6. DBR9 GT1 ’10 (FR)
7. R.S.01 GT3 ’16 (MR)
8. Alfa Romeo 4C Gr.3 (MR)
9. WRX Gr.3 (FR)
10. McLaren 650S GT3 ’15 (MR)

GT Series — Season 7 “WEC Team Challenge” (full format)

Per the series Sporting Code v1.6. Mixed-class endurance: **LMH** prototypes and **LMGT3** cars race together and score within their own class, feeding the **Team** and **Manufacturer** championships.

PHASE	TIME (ET)	RULES
Lobby opens	6:30 PM	In the lobby 5 minutes before qualifying; mandatory driver briefing first.
Qualifying	7:00 PM	10-minute open qualifying in **2 lobbies — one per class**. Fastest valid lap sets your class grid spot.
Grid + formation lap	After qualifying	LMH first, then LMGT3, each class in qualifying order. Formation lap 2-wide behind the Safety Car; no passing until the start/finish line.
Green flag	Race Control’s call	The race starts when the Safety Car pits and Race Control declares the Green Flag.

- **Teams:** 3 drivers (owner/captain + 2 multi-class drivers); up to 7 teams / 21 drivers, then reserves. **2 race each round — 1 LMH + 1 LMGT3** — rotating weekly; max 2 weeks in a row per driver. Entry: registration + Pre-Season Qualification set draft values for the **snake draft** (Aug 9, 7:00 PM EST). RSVP every round.
- **Manufacturers:** each team picks **1 LMH + 1 LMGT3 manufacturer** before Round 1 — locked all season, with **1 mulligan per class** (declare before lobby entry, admin approval, announce in Discord).
- **LMH cars:** Ferrari 499P ’23 · Porsche 963 ’24 · Toyota GR010 Hybrid ’21 · BMW M Hybrid V8 ’25 · Peugeot 9X8 ’25
- **LMGT3 cars:** Ferrari 296 GT3 · Porsche 911 GT3 R (992) · Ford Mustang GT3 · Chevrolet Corvette C7 GT3 · Mercedes-AMG GT3 · BMW M6 GT3 · Lexus RC F GT3 · Aston Martin V12 Vantage GT3 · McLaren 650S GT3
- **Settings:** BoP on; brake balance and downforce adjustable; performance parts unrestricted where allowed; **engine swaps prohibited**; power restrictors not permitted unless specified. Tires: Racing Hard / Medium / Soft approved — required compounds vary per event; fuel consumption varies per event.
- **Rosters:** owners post the round roster in **#gt-series-team-roster** at least 48 hours before each round; cars are submitted before Round 1. Cars carry an approved number, CSRL number plate, class decal, and team livery.
- **Stewarding:** protests to **#gt-series-incident-tickets** within 24 hours, video mandatory — GT specifics and the Driver Incident Point System are in Sec. 8; points in Sec. 6.5.

4. Race-night format (continued)

Shigeno Showdown (full format)

Thursdays. One-make: every driver runs the **Toyota Sprinter Trueno 1600GT APEX (S. Shigeno Version)** to one locked spec build — **BoP off**, because the build is the equalizer. **No qualifying** — a reverse grid every round.

PHASE	TIME (ET)	RULES
Lobby opens	8:30 PM	Room mode: Practice / Endurance, Race for Real, max 16. Weather & time of day posted in #Race-Details.
Grid set	Before the race	**No qualifying.** The host sets a **reverse grid** — Round 1 in reverse sign-up/RSVP order; later rounds in reverse championship points order.
Race	~9:00 PM	30-min race. Grid start with false start check.

- **Tires & fuel: Racing Mediums only** — tire wear **5x**, fuel consumption **5x**, fixed all season. Refueling 5 L/sec, initial fuel 50L.
- **Settings:** lobby settings options **all**; mechanical damage **Championship**; equal conditions off — **on** when the field splits into 2 lobbies (assignments posted in **#shigeno-race-details**). In-game penalties: shortcut strong, pit-lane cutting on, ghosting weak.
- **RSVP** on the CSRL Discord is mandatory — Arrive & Drive, no registration; the Round 1 grid is set by sign-up/RSVP order. Custom liveries encouraged.
- **Tire minimum:** a compound change counts only after 1 out lap + 1 racing lap (2-lap minimum) — failing it means **Back of Grid**. Sitting in the pits longer than 3 laps = DNF, zero points.

The spec build — locked, exact

634.02 PP (on Racing Mediums) · **250 HP**, naturally aspirated · **1,819 lbs** · downforce **60 front / 150 rear — locked**. Any deviation from this build = removal from the lobby, and potentially from the series.

1. Sports Suspension
2. Stock Differential
3. Stock Transmission
4. Full Control Computer (ECU)
5. Racing Air Filter
6. Racing Muffler
7. Racing Brake System
8. Racing Brake Pads
9. Brake Balance Controller
10. Racing Clutch & Flywheel
11. Racing Crankshaft
12. Engine Balance Tuning
13. Stroke Up
14. Increased Body Rigidity
15. Widebody
16. 14″ aftermarket wheels — standard width, wide offset
17. Front Splitter A
18. Rear Diffuser A
19. Custom Rear Wing (High)

5. Calendars

5.1 Monday Mayhem — “Test Drive: No Warranty”

10 rounds, consecutive Mondays from **Mon Nov 9, 2026**. One dedicated car per round — the whole field drives it. Required tire and tire wear × / fuel consumption × multipliers are announced per round in #Race-Details.

RD	DATE (MON)	TRACK	CAR
1	Nov 9, 2026	Sportsland SUGO	Ferrari F355 Berlinetta ’94 (374 HP)
2	Nov 16, 2026	Circuit Gilles-Villeneuve	Ford Mustang GT ’15 (434 HP)
3	Nov 23, 2026	Nürburgring GP	Aston Martin Vantage ’18 (502 HP)
4	Nov 30, 2026	Barcelona-Catalunya GP	Lexus LFA ’10 (552 HP)
5	Dec 7, 2026	Interlagos	Mercedes-AMG GT R ’17 (576 HP)
6	Dec 14, 2026	Autumn Ring	Maserati MC20 ’20 (621 HP)
7	Dec 21, 2026	Daytona Road Course	Dodge Viper GTS ’13 (640 HP)
8	Dec 28, 2026	Laguna Seca	McLaren 650S ’14 (641 HP)
9	Jan 4, 2027	Alsace Village Reverse	Lamborghini Aventador LP 750-4 SV ’15 (739 HP)
10	Jan 11, 2027	Tokyo Expressway South Counterclockwise	Bugatti Chiron ’16 (1479 HP)

5.2 GT Series — Season 7 “WEC Team Challenge” (in season now)

Sundays, bi-weekly — lobby 6:30 PM ET, qualifying 7:00 PM ET. **8 championship rounds; every round counts (no drop rounds).** The season opened with a Pre-Season Qualification event (two days to choose from) and the snake draft of 3-driver teams (Aug 9, 7:00 PM EST per the Season 7 code).

The Season 7 code does not publish a round-by-round calendar — round dates, tracks, and laps are **TBA**, announced per round in Discord.

5.3 Flat Out Friday | GT3 Challenge — Season 1 PRESEASON NOV 6, 2026 · FINALE FEB 19, 2027

Fridays: lobby 8:00 PM ET, qualifying 9:00 PM ET, race ~9:20 PM ET. Tire wear 5x, fuel consumption 2x — fixed all season.

Season 1 calendar with dates & lap counts → next page. Preseason Fri Nov 6 & 13, 2026; championship Fri Dec 4, 2026 – Fri Feb 19, 2027.

5.3 Flat Out Friday | GT3 Challenge — Season 1 calendar

5. Calendars (continued)

5.4 Shigeno Showdown — Season 1 (starts Thu Dec 3, 2026)

5 rounds, consecutive Thursdays. Lobby 8:30 PM ET, race ~9:00 PM ET. **No qualifying — reverse grid every round.** One-make Toyota Sprinter Trueno 1600GT APEX (S. Shigeno Version) to the locked spec build (Sec. 4) — the whole field drives it. Racing Mediums only; tire wear 5x, fuel consumption 5x all season.

RD	DATE (THU)	TRACK
1	Dec 3, 2026	Sportsland SUGO (2.23 mi)
2	Dec 10, 2026	Suzuka Short Course (1.39 mi)
3	Dec 17, 2026	Fuji Full Course (2.84 mi)
4	Dec 24, 2026	Tsukuba (1.27 mi)
5	Dec 31, 2026	Autumn Ring (TBD)

Round 5's Autumn Ring configuration is **TBD**. Rounds 4 and 5 fall on Christmas Eve and New Year's Eve.

Stewarding: Shigeno Showdown runs the same private ticketing system as Monday Mayhem (Sec. 9) — head stewards Kaniel_Outis78, SCR_SHREDDA84 & AmericanPunk311, plus acting stewards hired from the field.

6. Points system

Modeled on the Arrive & Drive philosophy, adapted to GT7 single-race nights. Monday Mayhem's scale is **confirmed** — official series document, Oct 22, 2026.

Monday Mayhem uses the confirmed turnout scale below. **Flat Out Friday** uses its own fixed scale (Sec. 6.4). **GT Series** uses its own 50-point scale (Sec. 6.5).

6.1 The core idea — Monday Mayhem (confirmed)

However many drivers show up is the max points available that night — excluding bonuses. The winner gets N points (N = number of drivers entered), 2nd gets N−1, 3rd gets N−2, down to 1 point for the last classified driver. Bigger grids are worth more; every position pays.

EXAMPLE GRID	RACE PAYOUT (1ST TO LAST)
10 drivers entered	10 - 9 - 8 - 7 - 6 - 5 - 4 - 3 - 2 - 1
16 drivers entered	16 down to 1

- **Entered** = drivers who start the race. Admin publishes N before the start.
- **Classified finish** requires appearing in the official results. **Monday Mayhem: a DNF scores 0 points** — a driver who does not finish scores nothing, classified by distance or not; unclassified disconnects also score 0.
- **Two lobbies:** when the field splits into two lobbies, the **combined** driver total is the top score in each lobby — 20 entered across both lobbies means each lobby's winner scores 20. The field splits after qualifying, and **each lobby can score its own Fastest Lap**.

6.2 Bonuses (on top, never capped by turnout)

BONUS	VALUE	CONDITION
Fast Lap	+1	Fastest lap of the race (each lobby, when two run)
Clean Race Bonus (CRB)	+1	Finish with **0 GT7-issued penalties**; claim by screenshot in **#test-drive-crb** within 1 hour of race end

No pole bonus and no Hard Charger on Monday nights — qualifying sets the grid, and the grid only.

6.3 Championship scoring — Monday Mayhem (confirmed)

- **Every round counts:** there is no drop round — a missed round scores 0 and stays 0.
- **Nightly total** = race points + all bonuses earned that night.
- **Tiebreakers:** (1) most race wins, (2) most fastest laps, (3) best finale finish, (4) earliest first win.

6.4 Flat Out Friday points (per series rules)

Flat Out Friday uses its own fixed scale — not the turnout scale above.

1st 100 · 2nd 80 · 3rd 72 · 4th 65 · 5th 59 · 6th 54 · 7th 50 · 8th 46 · 9th 42 · 10th 38 · 11th 35 · 12th 32 · 13th 29 · 14th 26 · 15th 23 · 16th 20 · 17th 18 · 18th 16 · 19th 14 · 20th 12 · 21st 10 · 22nd 9 · 23rd 8 · 24th 7 · 25th 6 · 26th 5 · 27th 4 · 28th 3 · 29th 2 · 30th–32nd 1.

- **Bonuses:** Pole +2, Fastest Lap +2, Clean Race Bonus +2 — CRB requires a screenshot submitted within 1 hour of race end (late screenshots not accepted).
- **Playoffs:** Round 9 pays **double points**, Round 10 pays **triple points**.

6.5 GT Series points — Season 7 "WEC Team Challenge"

6. Points system (continued)

6.6 Shigeno Showdown points

Per the official series document, Nov 10, 2026. Shigeno Showdown uses its own **fixed scale** — not the turnout scale.

1st 52 · 2nd 48 · 3rd 45 · 4th 43 · 5th 42 · 6th 40 · 7th 39 · 8th 38 · 9th 37 · 10th 36 · 11th 34 · 12th 33 · 13th 32 · 14th 31 · 15th 30 · 16th 29 · 17th 28 · 18th 27 · 19th 26 · 20th 25 · 21st 24 · 22nd 23 · 23rd 22 · 24th 21 · 25th 20 · 26th 19 · 27th 18 · 28th 17 · 29th 16 · 30th 15 · 31st 14 · 32nd 13.

- **Bonuses:** Fastest Lap **+1**, Clean Race Bonus **+2** — the CRB follows the GT7 standard (Sec. 7.5: finish with 0 GT7-issued penalties), claimed by screenshot in **#shigeno-crb** within 1 hour of race end. **No pole bonus** — there is no qualifying.
- **Two lobbies:** each lobby scores the fixed scale on its own finishing order, and **each lobby can score its own Fastest Lap**. Lobby assignments are posted in **#shigeno-race-details**.

Shigeno Showdown stewarding specifics

- Contact that causes damage, a car off track, or a position loss can draw a **grid-spot penalty at the next race** — giving the place back on track (self-governing) nullifies it. Penalties include **Stop-Go, grid spot(s), and loss of points**.
- Head stewards: **Kaniel_Outis78, SCR_SHREDDA84 & AmericanPunk311**, plus acting stewards hired from the field (1 extra at 10 or fewer drivers, 3 at 11+). Protests run through the private ticketing system in Sec. 9.

7. On-track sporting code

Leave racing room: a full car’s width once a rival is alongside. That standard runs every night, every series.

7.1 The golden rule

Race hard, race clean, leave racing room. CSRL is a community league: the driver you battle tonight is the teammate, rival, and recruiter you need next week. Avoidable contact that ruins another driver’s race is always reviewable, even if GT7’s penalty system calls it a racing incident.

7.2 Defending & overtaking

- **One defensive move per straight.** No weaving, no reactionary blocking after the attacker commits.
- A defending driver must leave at least one car’s width when a front bumper is alongside the rear axle (the “alongside” threshold).
- **Dive-bombs** from more than one car length back that require the lead driver to evade to avoid contact are the attacker’s fault if contact occurs.
- **Blue flags / lapped traffic:** hold a predictable line and allow the pass at the next safe straight. Don’t dive off track, but don’t defend against leaders either. Limited light flashing is allowed. A lapped driver may unlap themselves with a safe overtake — causing an incident while unlapping draws a harsher penalty.
- **Track limits per GT7.** Repeated off-track passes must be conceded immediately or the place returned.

7.3 Starts, restarts & grids

- No jump starts, no lagging to slingshot. Maintain formation discipline per the lobby's start type.
- Start type (standing or rolling) is announced in Discord before the race. Know the procedure before the lights go out — if unsure, ask in Discord voice.
- **Lap 1 is the highest-risk lap of the night.** Cold tires, crowded mirrors. Extra patience is mandatory; Lap 1 avoidable contact draws upgraded penalties (Sec. 8).

7.4 Pit lane, rejoining & in-game conduct

- Respect pit blend lines. No cutting pit entry/exit to gain time.
- **Rejoin safely** — check the radar/minimap, re-enter at low speed off the racing line. An unsafe re-entry gives you **no right of way until the apex of the following corner**.
- No intentional wrecking, brake-checking, pit-lane blocking, or using another car as a brake. Ever. This includes practice and post-race.
- **Voice/text chat:** no profanity directed at another driver, no hate speech, no spamming. During the race, keep comms to race calls ("passing left," "pitting in").

7.5 Clean Race Bonus (CRB) — the GT7 standard

GT7 has no incident-points system, so CRB uses the game's own penalties: **0 GT7-issued penalties during the race** earns the Clean Race Bonus. CRB is a reward for clean racing, not a penalty tier; losing it does not imply fault.

Self-reporting helps. Returning a position or owning a mistake before a protest is filed is mitigating and usually caps the outcome at a warning or minor (Sec. 8).

8. Incidents, penalties & stewarding

Admins (or designated stewards) review protests and may act on observed incidents without a protest. Penalties are educational first, punitive for repeat or intentional conduct.

LEVEL	TYPICAL CONDUCT	PENALTY RANGE
Warning	Careless move, no position change, minor contact	Discord warning; noted for repeat tracking
Minor	Avoidable contact causing position loss; unsafe rejoin	Place swap / points adjustment; loss of CRB if not already lost
Major	Avoidable contact causing DNF-level damage; Lap 1 pile-up fault; blocking causing crash	Race DSQ or grid penalty next round; points dock at admin discretion
Severe	Intentional wrecking, retaliation, hate speech	Round DSQ, suspension, or removal from series/Discord

- **Repeat offenders:** two minors in three rounds escalate to a major. Stewards track privately; drivers may request their own record.
- **Self-reporting:** voluntarily returning a position or self-reporting fault before a protest is filed is mitigating and usually caps the penalty at a warning/minor.
- **No live penalties** unless an admin calls one in Discord voice for safety (e.g., park a damaged car). Most adjudication is post-race.

GT Series specifics (per the Season 7 code, v1.6)

- Protests go to **#gt-series-incident-tickets** (driver-initiated review): video/replay evidence is **mandatory**, filed within 24 hours of race end; the reported driver has 24 hours to respond; stewards decide by majority.
- GT stewards can also issue **time penalties (5 / 10 / 20 / 30 seconds)**, drive-through and stop-and-go penalties.
- **Driver Incident Points (GT only):** written warning 1 · avoidable contact 2 · causing a collision 3 · unsafe rejoin 2 · blocking 2 · divebomb 2 · ignoring blue flags 2 · unsportsmanlike conduct 5 · abuse toward officials 5 · intentional contact 8. Totals trigger: **6 = official warning · 10 = 5-place grid penalty · 15 = one-race suspension · 20 = review for removal**. One point is removed after three consecutive clean race weekends.

9. Protests & appeals

- **Monday Mayhem & Flat Out Friday** run the **private ticketing system**: incidents are reported by ticket — **video + description required** — within 24 hours of race end. The defending driver has 24 hours to respond; results are published 24 hours after the response window closes. A DNF forfeits the right to review. Keep tickets professional — harassment in a ticket can draw a race suspension. (Friday details in Sec. 4.) GT Series protests run through **#gt-series-incident-tickets** — see the GT specifics in Sec. 8.
- **Monday head stewards:** Kaniel_Outis78, SCR_SHREDDA84 & AmericanPunk311, plus acting stewards hired from the field (1 extra at 10 or fewer drivers, 3 at 11+). Monday penalties include **Stop-Go, grid spot(s), and loss of points**; contact causing damage, an off-track, or a position loss can draw a grid-spot penalty at the next race (giving the place back on track nullifies it), and failing the 2-lap tire minimum (Sec. 4) means **Back of Grid**.
- **Shigeno head stewards:** Kaniel_Outis78, SCR_SHREDDA84 & AmericanPunk311, plus acting stewards hired from the field (1 extra at 10 or fewer drivers, 3 at 11+). Shigeno penalties include **Stop-Go, grid spot(s), and loss of points**.
- File in the Discord protest channel **within 24 hours** of the lobby closing. Include: round, race, lap, turn, drivers involved, and a replay clip or timestamp.
- **One protest per incident.** Do not argue the incident in public channels while it is under review.
- Stewards aim to publish decisions **within 48 hours**. Decisions state fault, penalty (if any), and points adjustments.
- **Appeal:** one appeal per decision, within 24 hours of publication, with new evidence only (different angle/clip). The appeal decision is final.
- Frivolous or harassing protests can themselves draw a warning.

> **How to save evidence in GT7:** after the race, save the replay from the race results screen, then use the PS5's capture tools to clip the incident before filing.

10. Championships, ties & conduct off track

- **Titles:** Drivers' Champion (Monday Mayhem and Flat Out Friday). **GT Series Season 7 crowns Team and Manufacturer champions** — drivers score the points; teams and manufacturers take the titles.
- **Eligibility for titles:** must contest at least 6 of 10 Monday Mayhem rounds; GT Series and Flat Out Friday per their season announcements. Admin may waive for mid-season joiners who contest all remaining rounds.
- **Off-track conduct:** Server Rules apply in all league spaces. Recruiting spam, poaching drama, or leaking lobby passwords/room IDs outside Discord breaches this code.
- **Amendments:** admin may amend this code mid-season for safety or clarity with 24-hour Discord notice. Points-system changes never apply retroactively unless correcting a scoring error.
- **Scoring errors:** report within 48 hours of published standings. Corrections after that window require admin approval.

Race the night, respect the season. Show up, race clean, and the championship takes care of itself — every finisher scores, and clean + quick both pay.

CHAMPIONSHIP SPORTSCAR RACING LEAGUE

Ready to race?

シゲノショーダウン

Thursdays — lobby 8:30 PM ET, race ~9:00 PM ET. Shigeno Showdown — one-make Trueno, reverse grids, 30-min races.

Join the CSRL Discord, grab the Racer role, and you're on the roster.
